

### **Program Closing and Emergency Notifications**

If the Ashtabula County Board of Developmental Disabilities must close our programs due to weather or weather-related circumstances, announcements will be made on local radio stations and major Cleveland TV stations.

The Ashtabula County Board of Developmental Disabilities will also be using an electronic notification system in addition to radio and TV announcements as needed to notify employees, individuals and families receiving county board services of program closings and/or any emergency alerts or other important alerts.

If you have any question about our program closing and emergency notification system, please contact the Board Office at 440-224-2155.
